

JOINT DEVELOPMENT ASSOCIATES

Catalyzing Transformational Development

JDA's Afghanistan staff participated in Organizational Value Training. The training served as a fun time to review the organization's history and as an orientation for the new employees. The goal was to fully engage our employees in discussing our [values](#). This was a special event where our staff shared a good time together and enjoyed Afghanistan's national dish, Kabuli Pilau. Kabuli Pilau's ingredients consist of steamed rice, raisins, chickpeas, carrots and lamb.

A new group of women and men were also integrated into JDA to assist with our Nutrition program, WASH & BLISS program, and RADP-North activities. We give all our new staff a warm welcome and are excited to have them be a part of JDA. The women received a colorful head scarf as a gift for International Women's Day.
